- DUNS: 831603241
- EIN: 27-0730446
- CAGE Code: SPEE6
- NAICS Codes: 238210, 561621, 561210
- Licensed, Insured and bonded

SAMPLE PROJECTS

California Office of Emergency Services

System Integration project: Mounted 14 of the 55 inches adjoining NEC displays at CalOES.

Software Engineer completed the network testing and software implementation of Hiperwall and LexRay software.

CBS

- New 5-story building site: Installed 4 cables to 111 work stations across 3 floors.
- Installed "J-HOOK" cable pathways above the ceiling on 3 floors. Installed fiber (single-mode and multi-mode).
- Rod/rope underground structure

Walmart

- Retail store remodeling: Installed 4 self-checkout (SCO) stands. Installation of conduits, testing electrical connections for each SCO lane.
- Mounted power poles
- Installed new data cables to existing switches.
- Moved and added cash registers where our technicians worked alongside with electricians to move and new cash registers

UCLA/USC Hospitals

- CISCO Upgrade Project: Racked and stacked new switches in MDF/Data Center and IDFs throughout the hospital.
- Installed and cross-connected the existing network to new switches.
- Over 17,000 connections were installed, connected, and tested without hindering patient care.
